Stephenson Steam Railway

Stephenson Steam Railway is home to a range of working steam and diesel trains including George Stephenson's 'Billy', a forerunner of the world-famous Rocket and the world's third oldest surviving steam engine. On selected days, you can take a ride on a passenger train pulled by a heritage steam engine or vintage diesel locomotive. The trains are maintained and operated by a team of volunteers.

Cost: Entry to the Museum is free. There is a cost for heritage train rides. Please check their website for train times and special events.

It's is one of 9 museums managed by **North East Museums.**

Museums, culture and heritage can help to improve your health and wellbeing. They have free museum object boxes that you can borrow. You can use these can be used as part of a guided session. Read more about their free health and social care resources.
