

Minibus Services

Community transport is the name for minibus services that are provided by not-for-profit or social enterprise organisations for the benefit of the local community. Individuals or groups can pay to hire a mini bus, or a mini bus and a driver.

The buses provide access for disabled people and for people with mobility problems by means of tail lifts or low-level suspension. All buses should be fully compliant with the Disability Discrimination Act and all drivers should be trained to provide the necessary support for passengers to meet their specific needs.
