Community Security Trust (CST)

Community Security Trust (CST) protects British Jews from antisemitism and related threats. They provide:

- a confidential service to report antisemitic incidents
- victim support
- liaison with the police and other services to help ensure that any incident is dealt with properly. They can report the incident to the police for you as a 'Third Party Reporter'
- online reporting for non-emergency situations
- security advice and training for Jewish communal organisations, events, schools and synagogues

If you are the victim of an antisemitic incident or you have information regarding an antisemitic incident that happened to somebody else, contact them as soon as possible.

An antisemitic incident is any malicious act aimed at Jewish people, organisations or property, where there is evidence that the incident has antisemitic motivation or content, or that the victim was targeted because they are (or are believed to be) Jewish.

In an emergency, always call the police on 999 and then call CST
