

North East Drive Mobility

North East Drive Mobility is a service that helps people to retain or regain independence as drivers and passengers. North East Drive Mobility provides independent assessment and advice to people with a medical condition, or disability, which may affect their ability to drive, or use a vehicle as a passenger.

The North East Drive Mobility service offers:

- Assessment of driving ability: this takes place on our purpose-built driving track, as well as on the public highway.
- Advice on vehicle adaptations.
- Advice on getting in and out of a vehicle, and wheelchair stowage.
- Specialist driving tuition.
- Information and advice service, including advice on possible alternatives to using a car, for example, community transport services.
