

Junction 42

Junction 42 work in prisons and communities across north east England and central Scotland supporting people throughout the journey of custody and rehabilitation.

They also offer the Work Out programme. The programme helps adults with criminal convictions in the North of Tyne area to find employment through:

- 1 to 1 mentoring
- Group work
- Volunteering placements

The project focusses on building up the individual's citizenship (ID, bank account, registered health services) and providing support to increase understanding of what help to overcome barriers is available to them.
