Information NOW
Information for people in Newcastle upon Tyne

Motor Neurone Disease Association (MNDA)

MND is a motor neurone disease that leads to muscle weakness and wastage owing to disrupted connections between the brain and spinal cord. The MND Association is a charity that works in England, Wales and Northern Ireland offering support to those affected, research to find a cure and campaigning for better quality of life of those people living with or affected by MND.

There are several local branches and the one for Newcastle is the Tyne & Wear Branch. Linda McNally is the contact (see below).
