

Nil Living

Newcastle upon Tyne's first zero waste and refill shop providing sustainable and largely plastic free homeware and personal goods. They also have an online shopping option.

How it works:

- take your own own containers to fill with their products; containers should be clean, leak proof and fit on to the scales
- buy sustainable and high-quality containers or make use of their free recycled paper bags
- buy dried goods
- buy liquids such as shampoo and cleaning products
- buy alternative products, such as bamboo toothbrushes.

Zero waste shopping is usually cheaper as you only pay for product you weigh.
