# Smarta

Smarta is flexible online training to help you start your own business. It provides all the business basics in 6 weeks. They teach everything you need to become the boss of your own successful business. From testing the water with market research, to developing a business plan and applying for funding. You can learn from entrepreneurial experts, through interactive live learning sessions, 1 to 1 tutorials, group classes, and access recordings and worksheets. Funding is available for their courses. They will check your eligibility when you apply.

Smarta is ran by Transmit Startups.
