

English Unlocked

They provide workplace training to help organisations (companies, charities and public services) communicate better with people who are learning English as a foreign language.

They provide training for staff on these topics:

- how to communicate with non-English speaking clients
- how to work effectively with an interpreter
- how to use Google Translate in the workplace and notes of caution
- Guide – 5 Steps to clearer writing

They also have a rewriting service.

English Unlocked is a local business that provides paid services. They are not an ESOL provider, an English school or an interpreting service.
