

## Changing Lives Sanctum

Sanctum consists of safe accommodation for men and women who have experienced domestic abuse and who cannot access mainstream services or refuge for multiple reasons (e.g. if they have drug or alcohol issues, pets, older children, etc).

Service users are supported short-term for 3-6 months, during which they are provided with a safe house, emotional support, signposting to long-term specialist services and support to help move them on safely and securely into their own long-term tenancy.
