

The Jo Cox Foundation

The Jo Cox Foundation runs projects to help connect communities and bring people together. They run the:

- Great Winter Get Together which takes place in January
- Great Get Together in June

Hundreds of events take place across the country, connecting people of all ages to help reduce loneliness. During the summer and winter Great Get Togethers, people come together in parks, on streets or in community centres to make connections with those from different backgrounds and bring Jo's words – '**we have more in common than that which divides us**' – to life.

You can take part in activities, meet new people, share food, conversation and company. Find events taking place near you on their website or register your own event.
