

## Halo Break the Silence project

Their aim is to raise awareness so victims of forced marriage, honour based violence or female genital mutilation are more likely to seek help at an earlier stage. They will enable other agencies to help the victim at an early stage. Confidential and non-discriminatory. Services include:

- obtaining a safe place to live
- understanding what welfare and benefit entitlement you may have
- gaining police protection
- gaining court ordered protection
- getting advice on the laws concerning forced marriages and other forms of abuse
- signposting you to other professionals which can help

You can make a referral or self refer or use the live chat.
