

Care Quality Commission (CQC)

CQC make sure hospitals, care homes, home care, dental and GP surgeries, and all other care services in England provide people with safe, effective, compassionate and high-quality care, and they encourage them to make improvements. You can give them feedback about care services on their website.

They inspect services and publish the results on their website, to help you make better decisions about the care you receive.

InformationNOW has linked the CQC widget to each type of care provider so you can see their CQC rating at a glance and follow the report to find out more.

The CQC is the independent regulator of health and social care in England. Your feedback is used to decide when, where and what to inspect. To continue to improve care in England.
