Relay UK

Relay UK helps deaf, speech-impaired and hearing people talk to each other over the phone using the relay service. You can use the Relay UK app with your mobile, tablet or PC. Or just use Relay UK on your Minicom or Uniphone. You pay nothing to use the service itself, just your provider's usual charges.

Just type what you'd like to say and read the replies in real-time, while an assistant relays the conversation.
