

## Workers' Educational Association (WEA)

The WEA in the North East was established as a voluntary organisation in 1910 and has provided part time courses for adults for over 100 years. Their courses are open to everyone over the age of 19. They also have a special mission to help adults who are socially or economically disadvantaged. You can search for courses by topic or postcode. They offer student support from using software to an Additional Learner Support Assessment to meet your needs.

They also offer courses such as English for speakers of other languages (ESOL) to develop IT skills and employability skills.
