

## Bosnian Genocide Educational Trust (BGET)

BGET aims to humanise history by replacing faceless statistics and numbers with real human experience through storytelling.

Their work creates an ideal opportunity to inspire critical thinking, empathy, personal growth, and awareness of social issues such as homelessness, food poverty, refugees etc. We hope to encourage personal acts of peace in our everyday lives.

Their goal is that BGET will act as a repository for the stories and artefacts of people who experienced the genocide in Bosnia first-hand, particularly those who came to the UK as refugees, and to become the cornerstone of all future research, educational and creative material on the subject.
