

Glow: Newcastle Cultural Education Partnership

Glow, Newcastle is an organisation that has grown out of Newcastle Cultural Education Partnership.

They want to ensure that children and young people aged 0-25 in Newcastle have access to high quality cultural opportunities in school and outside school. They want all children and young people in Newcastle to contribute to and feel ownership of the city's culture.

They work in partnership with the city's education sector and with a range of other public and voluntary sector partners to ensure children and young people develop and share their creativity within and beyond their communities.

They also provide teacher and practitioner CPD to seed long-term, self-sustaining cultural engagement and promote personal wellbeing. They advocate for high quality cultural education in schools, and run programmes which encourage children to see a career in creative practice or the cultural industries as a real and viable opportunity, irrespective of personal background or economic status.
