

Homeshare North East

Homeshare North East matches older people who are living alone and have a spare room (Householders) with someone who needs affordable accommodation (Homesharers). In return for a place to live, Homesharers provide practical support such as cooking, cleaning, shopping, or companionship.

This service helps older people stay independent in their own homes while offering reassurance to family members. Homesharers are fully vetted and supported throughout the match.

Older people in Newcastle and surrounding areas can access the service directly, or through a referral by a family member or professional. Homeshare North East provides support throughout the process and checks that both parties are happy and safe.

You can contact Homeshare North East by phone, email or through their website to find out more or begin the application process.
