

Alzheimer's Society

Alzheimer's Society are a dementia support and research charity, for anyone affected by any form of dementia in England, Wales and Northern Ireland. They provide information and practical and emotional support to help people live well with alzheimers or dementia, and invest in research with the ultimate goal of defeating it. They also campaign to improve public understanding of dementia and the devastating impact it can have, and make sure it's taken seriously and acted on by our governments.
