

Heaton Voices Choir

Heaton Voices is a community choir. Their aims are:

- To advance the education of the local community with particular reference to music with the intention of fostering a love of a broad range of music
- To benefit the local community by providing an organisation which encourages participation and interest in music across all sections of the community
- To provide access to opportunities for development of choral skills and musical awareness and appreciation

They are keen to perform in many different places, but particularly in and around Heaton.
