

Heritage, History & Her

Heritage, History & Her offers history engagement workshops. They help people find their own traits and experiences reflected in historic examples – for example, those who broke gender norms and social expectations or neurodivergent traits. They teach people how to research the past and use free resources to bring it to life. This means participants can create their own identity, learn research skills and develop their confidence.

They also work with heritage organisations to bring history to life, with engagement workshops, heritage crafts and using technology for immersive experiences.

You can find more about the work they offer here: [Freelance Services](#)

Public workshops will be added to this website, and organisations can get in touch via their website www.heritagehistoryher.co.uk

Email molly.wyatt@heritagehistoryher.co.uk to ask any questions and find out more.
