

## Techy Tea Party

Do you have a laptop, tablet, iPad or smartphone that you want to get more out of?

Are you interested in getting one but would like to have a practice first?

Is there something specific that you want to use your mobile device for, but aren't sure how to go about it?

Come along to this informal session with your mobile device, speak to one of our friendly volunteers and chat to others who are learning how to get online.

Topics covered include basic settings, how to secure your device, general navigation and downloading apps.

[Please note: If you have an iPad you will need to bring your Apple ID; if you have a tablet you will need your 'gmail' email address and password].

Pease also make sure that the device you are bringing is fully charged.
