

Fenham Pocket Park

Fenham Pocket Park is a small community space for people to meet and relax. Currently looking at developing a raised bed, meadow and dwarf trees and a herb garden. Their plans:

- Clear debris and unmaintained/unsafe foliage from outside the library and swimming pool
- Community intervention to engage the general public to reimagine Fenham futures
- Construct planters from robust, flexible and reusable materials
- Plant trees, edibles and flowers to green the area
- Well-maintained, safe and accessible green space

Why not get involved, volunteer and develop Fenham as a great place to live.
