

Tyneside Badminton Centre tree planting

Join us for tree planting at Tyneside Badminton Centre.

As part of Northumberland Wildlife Trust's work for the North East Community Forest, we will be replanting trees across the open land behind the Tyneside Badminton Centre.

Come and get stuck in with some winter warming activity! Drop in for as little or as long as you like.

No previous experience of tree planting is required. This is not a highly physically demanding task, but please note that the terrain is sloping and uneven. Dress for the weather.

Meeting point – Grassy area to the left of the centre (as you look at it from the sloping drive).
