The Glaucoma UK is the charity for people with glaucoma in the UK. They help to prevent unnecessary loss of sight through glaucoma, by funding research, and providing free support to patients, relatives and professionals.

Their services include free literature and information which can be ordered from their website and Helpline (Sightline).

Their regional development manager is available to give awareness talks at groups and events and is working to develop patient forums with the local eye clinics. Please get in touch if you would like to discuss getting involved.
